 The Laboratory Of Flowers, Established in 1989, is dedicated to providing organic and wild essential oils whenever possible. If we do not sell an organic essential oil then it probably does not exist. We carry 234 essential oils of which:
114 are organic
24 are select
 (non certified organic)
6 are Bio Dynamic,
41 are Wild
49 are conventional

	ABSOLUTES AND RARE AND PRECIOUS OILS	Absolutes are concentrated fragrances derived from plants through the use of industrial solvents. Although these solvents are removed during final distillation, residue amounts do remain. Absolutes are suitable for perfumery and when making exotic blends. Some absolutes are only available as an absolute and not as an essential oil. They are not suitable to be included in therapeutic blends.

Carrier oils are fatty oils that are an excellent base for mixing essential oils as essential oils love fat. We carry 41 carrier oils because we feel that the carrier oil is as important as the essential oil. We classify our carrier oils into three categories **B** = Basic (for massage) **E** = Emollient (suitable for skin care) **S** = Specialty (for specific application).

Floral Water or hydrosols are the waters that were use³in the distillation of the plant, through steam. We specialize in organic floral waters from around the world and super concentrated hydrosols from Hawaii that are the results of a slow distillation over several days. Our floral waters contain no preservatives and have a shelf life of between 6 months to a year. Floral waters contain water soluble aromatic components not found in essential oils are all safe to use.

<p>RESTORATIVE THERAPY (see next section for step by step treatment)</p> 	<p>This profoundly relaxing therapy works on the back of the body and focuses primarily on the spine in 12 aromatherapy steps using ten essential oils, two synergies and specially infused oils such as arnica, calendula and St Johns Wort. The treatment includes skin brushing and massage to the head, scalp, neck, shoulders, back, hands and feet. On completion of the treatment a soothing anti-inflammatory blend (blue blend) is applied before hot compresses are applied for greater absorption. This extraordinarily potent treatment remains active within the body from five to seven days and is ideal for stress, back pain, jet lag, immune compromise, exhaustion and low energy.</p>
